

# Henderson Hall

*Plans are underway to establish apple orchards once again at Henderson Hall. These plans include three orchards each named for the three Henderson brothers who ran 2500 acre plantation known as Henderson Farm.*

*To complete the project, Henderson Hall volunteers are seeking individual or company sponsors for the trees. Our goal is to plant 80-100 trees in the spring of 2018. Each tree sponsorship is \$40.00 and will cover the cost of the tree and protective fencing. Individuals or businesses who sponsor a tree will be recognized by having their name placed on a placard at the entrance of one of the three orchards. Each orchard will have approximately 30 trees.*

*It is our hope to be able to sell apples from these orchards as well as other apple products.*

*Your help and support is greatly appreciated and necessary for this project to be a success.*
